DETAILED ACTION

Allowable Subject Matter

1. Claims 2-16, 19-23, 26-28, 31, 32, and 34-40 are allowed.
2. The following is an examiner's statement of reasons for allowance: the examiner agrees with the applicant in regards to the novelty and non-obviousness of the invention as currently drawn.
3. The invention is drawn toward a method of providing interactive ongoing coaching to a plurality of clients using a mixture of e-mail communications and non-email Internet technology based communications (i.e. web-based systems). As defined by the applicant, coaching is limited to advisory communications regarding health and fitness topics only. The system involves assigning a personal coach to each client, such that the coach and client will engage in multiple, real-time, scheduled conversations regarding the personal health and fitness concerns of a client, such that a coach will guide a client to achieve a health-related goal over a period of time and on a periodic basis, and will further utilize feedback from the client to determine the client's distance to the health goal, and to modify advisory statements regarding the health goal.
4. At the time of the invention, this combination of features as drawn in the claim method is novel and non-obvious. Therefore, these claims are allowable for the reasons above.
5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
